Declaration of Conformity

We declare that our products (lighting equipments) comply with the following specification and bears CE mark in accordance with the provision of the Electromagnetic Compatibility (EMC) Directive 89/336/EEC.

EN55103-1: 2009 ; EN55103-2: 2009; EN62471: 2008;
EN61000-3-2: 2006 + A1:2009 + A2:2009; EN61000-3-3: 2008.

&

Harmonized Standard

EN 60598-1:2008 + All:2009; EN 60598-2-17:1989 + A2:1991; EN 62471:2008;
EN 62493: 2010
Safety of household and similar electrical appliances
Part 1: General requirements

4. Rotation: Manually adjust the rotation direction, speed and stop rotation.

4. Troubleshooting

If the fixture does not work, no light, please check the connection of power cable, also measure the mains voltage on the main connector

5. Fixture Cleaning

The cleaning must be carried out periodically to optimize light output. Cleaning frequency depends on the environment in which the fixture operates: moist, smoky or particularly dirty surrounding can cause greater accumulation of dirt on the fixture.

- Clean with soft cloth using normal glass cleaning fluid.
- Always dry the parts carefully.
- Clean the external optics at least every 30 days.

1. Safety Instructions

WARNING

Please read the instructions carefully which includes important information about the installation, operation and maintenance.

Please keep this User Manual for future consultation. If you sell the unit to another user, be sure that they also receive this instruction booklet.

- Unpack and check carefully there is no transportation damage before using the unit.
- Before operating, ensure that the voltage and frequency of power supply match the power requirements of the unit.
- It's important to ground the yellow/green conductor to earth in order to avoid electric shock.
- The unit is for indoor use only. Use only in a dry location.
- The unit must be installed in a location with adequate ventilation, at least 50cm from adjacent surfaces. Be sure that no ventilation slots are blocked.
- Disconnect main power before replacement or servicing.
- Make sure there are no flammable materials close to the unit while operating as it is fire hazard.
- Use safety cables when fixing this unit.
- Maximum ambient temperature is Ta: 40 degrees C. DO NOT operate it where the temperature is higher than this.
- Turn off the power and allow about 15 minutes for the unit to cool down before servicing.
- In the event of a serious operating problem, stop using the unit immediately. Never try to repair the unit by yourself. Repairs carried out by unskilled people can lead to damage or malfunction. Please contact the nearest authorized technical assistance center. Always use the same type spare parts.
- DO NOT touch any cables during operation as high voltage may cause electric shock.

Warning:

- To prevent or reduce the risk of electrical shock or fire, do not expose the unit to rain or moisture.
- The housing and lenses must be replaced if they are visibly damaged.

Caution:

There are no user serviceable parts inside the unit. Do not open the housing or attempt any repairs yourself. In the unlikely event your unit may require service, please contact your nearest dealer.

Installation:

The unit should be mounted via its screw holes on the bracket. Always ensure that the unit is firmly fixed to avoid vibration and slipping while operating. Make sure that the structure to which you are attaching the unit is secure and is able to support a weight of 10 times of the unit's weight. Also always use a safety cable that can hold 12 times of the weight of the unit when installing the fixture.

The equipment must be installed by professionals. It must be fixed at a place where is out of the reach of people and no one pass by or under it.

2. Technical Specifications

- Logo projector with latest 60W LED technology, delivering powerful output
- Featuring 2 knobs for gobo rotation speed, direction and dimmer control
- Easy access door for gobo replacement
- Manual focus adjustment
- Printed logo can be used in the unit
- Ideal for shops, stores, bars, and any commercial advertisements

◇ Power Voltage:	AC 100~240V, 50/60Hz
◇ Power Consumption:	70W
◇ Fuse:	T 2A
◇ Power Cable Daisy Chain:	10 Fixtures Max. (230V, 50Hz) 5 Fixtures Max. (120V, 60Hz)
◇ Beam Angle:	18°
◇ Weight:	3.4kgs

◇ **Dimension:** 236 x 234 x 206mm

3. How To Set The Unit

3.1 Control Panel

1. POWER IN: Connects to mains supply power;

2. POWER OUT: Connects to the next unit;

3. Dimmer: Manually adjust dimmer;
